New Product Information

New 1-Gallon EZ Stor[®]

Reusable Storage Container

Ropak has expanded its line of rectangular EZ Stor[®] containers to include a new 1-gallon size.

This container offers several benefits including:

- **HINGED COVER:** The hinged cover comes with a tamper-evident tear strip. After it is opened, the cover remains attached, making it ideal for scooping products and ensuring the cover is resealed for freshness. When opened, the container has a large area for easy access to its contents. When finished, simply snap the cover shut. The cover is also available with a foam gasket for liquid applications.
- **EZ CLEAN COVER:** The EZ Clean Cover with its new raised profile makes it easy to clean and prevents a space for liquid or dust to accumulate.
- **REUSABLE:** This reusable storage container serves as a value-added package by differentiating your product from your competitors. It also has numerous after-market uses in storing different items around your consumer's home, office or business.
- **SUPERIOR:** The optional clear body offers superior container clarity that lets your product sell itself.
