Ropak Packaging's Square Container Line delivers user-friendly features and high performance in a space-saving design that will save you money by reducing supply chain complexity. Broadest line of square packages available with ten sizes ranging from 1.2-quarts to 5-gallons.

- **Significant Total Cost Savings Due to Space Efficiency**
- **User-Friendly Features**
- **High Performance**
- **Differentiates Your Product**
- **Reusable**

The square shape permits 60 filled containers to fit the space of 36 filled round containers. It conveniently cubes out trucks, pallets, warehouses, filling plants and retail shelves. Significant savings can be reaped when analyzing total costs associated with square vs. round containers throughout the supply chain - from freight savings to storage cost savings to secondary packaging (dunnage) savings.

## EZ COVER®

Ropak's patented EZ Covers turn nearly any container into a user-friendly package. EZ Covers are as easy to open without the use of a tool, as they are to snap shut. Plus they provide tamper evedency and ensure product freshness from the secure seal. The cover is available for dry or liquid tight applications. The Ring Pull® feature, which intuitively points out and aids in cover removal, is also available for most sizes.

## HINGED

Hinged covers, available for 2 through 5-gal sizes, are easy to open and close for frequent use and provide a large opening for easy access. Patented lock in place mechanism will keep cover in opened position for easy and convenient product dispensing.

## CLEAR OR COLORED

Available in clear, which lets your product sell itself, or in a wide variety of colors to make your product stand out on the store shelves. Multiple decoration options available to ensure maximum visual impact.

## EZ GRIP™ HANDLE

Easy handling is provided by built-in handgrips, as well as optional EZ Grip handles on most sizes. Handles can be color coordinated with the package for extra pizzazz.
